Dear Dr. Nance, Taim, and Region 6 EPA staff members,

Thank you for taking the time to meet with us on Monday afternoon. We appreciate you hearing our concerns regarding North Texas air quality, and look forward to continuing to work together in the future.

Please see below for resources and contact information for each of the groups who spoke during our meeting.

Liveable Arlington

Downwinders at Risk

Representative: Evelyn Mayo [evelynmayo@sierraclub.org] Ex. 6 Personal Privacy (PP)

1. Federalizing the Clean Air Process: All DFW clean air plans up to now (1990's -2020's) have been "SIPs" - State Implementation Plans, directed by TCEQ. We're asking the EPA to take that authority away from TCEQ and do it themselves.

2. Second Look at GAF Stack Test (documents attached): Suspicions about the stack test not aligned with state requirements and would like a second look.

3. Ongoing HUD Complaint (documents attached): Aligns with many of the points raised in your letter regarding GAF and environmental justice concerns. Please consider weighing in on the zoning request that the City of Dallas is considering to perpetuate, and not address GAF's industrial use.

4. Chicago Recycling Facility and EPA Support: Comparable situation with GAF and West Dallas with the City of Dallas. Would like EPA support and intervention in this local permitting issue.

5. Lowering National PM standards: Deployment of regulatory EPA monitor/stack test/NSR permit amendment that would help address resident concerns about GAF's pollution and harms.
